

STATEMENT OF PURPOSE

RS28404 / H0091

This legislation adds clarifying language to Section 1.(a) of Idaho Code 36-1103 to allow for the use of non-edible portions of game for bait when trapping. It also clarifies the use of salvaged wildlife for bait while trapping. This bill includes the use of bait for fur-bearing and other animals mirroring the same methods and processes used for other species including wolves and predators which are now included in this section of code. This will enable the trapping regulations to be consistent, uniform and prevent confusion in the field.
